Important Reminder: COVID-19 precautions

The International Center would like to remind you to continue to follow COVID-19 precautions, particularly since the new COVID-10 variant B.1.1.7 has been identified in Ann Arbor. This variant may spread more easily and quickly.

- **Stay informed!** Carefully read emails from Robert Ernst, M.D., the Associate Vice President of Student Life for Health and Wellness or from Preeti Malani, M.D., U-M’s Chief Health Officer.
- **Follow these public health best practices:**
  - Avoid large social gatherings (current public health orders restrict indoors gatherings to no more than 10 people).
  - Wear a mask on campus and when around anyone outside your immediate household.
  - Practice social distancing.
  - Watch for symptoms, and isolate and seek medical care immediately if symptoms develop.
- Check the CAMPUS MAIZE AND BLUEPRINT [3] website often for updated information
- Indicate your interest in getting the vaccine when you are eligible, by completing the Blue Queue survey [4].
- If you plan to travel outside or within the US, make sure you understand CDC guidelines for domestic [5] or international [6] travel as well as any state or local recommendations or requirements [7] related to travel.
- When you travel to campus from abroad or from another U.S. state, be sure to follow these guidelines [8].
