U-M COVID-19 Testing Requirement Update

On February 5, 2021, U-M announced that all students – including graduate and professional students – who live on or come to campus will be required to be tested weekly through the U-M Community Sampling and Tracking Program starting February 16. Please read this announcement[1] so that you understand the university’s COVID-19 related safety expectations. If you plan to visit the International Center during our on-site office hours[2], you must be in compliance with the weekly testing requirements in order to enter SAB and the International Center.

Stay safe and well, and the International Center thanks you for taking these precautions as we all work together to protect each other from the potential spread of COVID-19.
