Guest Student Information

Study at another school during annual vacation

An F-1 student may attend another school as a recreational activity during an authorized vacation period (spring/summer term) without transferring his or her SEVIS record provided he or she is eligible and intends to register for the next term at the authorized school. If the student's address will change during the summer, it must be updated in SEVIS.

Study at another school during the academic year (fall/winter semesters)

An F-1 student may attend another school during the academic year provided he/she maintains full time enrollment at U-M. Full time U-M enrollment for undergraduate students is 12 credits, for graduate students 8 credits, and for GSI/GSRAs 6 credits.

If an F-1 student wishes to enroll part time at U-M and part time at another school, concurrent enrollment [1] authorization is required.

It is not allowed to enroll full time at another school while taking no classes at U-M during the academic year.

Only 3 credits of online courses may count toward full time enrollment.
