Health Care

In order to avoid unnecessary costs when you seek health care services, it’s important to be familiar with your health insurance policy. Read your health insurance policy carefully so that you know what your plan covers and does not cover, and which doctors, hospitals, and pharmacies are in your insurance plan’s network. If you are enrolled in U-M’s International Student/Scholar Health Insurance Plan (Blue Care Network), visit the U-M International Center's Health Insurance [1] section for more information. Review the Benefits and Wellness section of the U-M Human Resources website if you are enrolled in GradCare [2] or in one of U-M’s faculty/staff health insurance plans [3]. If you have a different insurance plan, consult that plan’s website.
